Past Performance is no indication or guaranty of future results. These materials are for informational purposes only and do not constitute an offer to sell or a solicitation of an offer to buy any securities, nor shall it or the fact of its distribution or communication form the basis of, or be relied upon in connection with, any contract. Any such offer will be made only pursuant to offering documents. Prospective investors should carefully read the relevant offering documents, including the "Risk Factors" section therein before making any investment decision. This document does not represent financial, tax or legal advice - prospective investors should refer to their own advisers. Investment in a private fund involves a high degree of risk and is suitable only for certain sophisticated investors. Net IRR and MOIC calculations include unrealized gains of portfolio companies still held by funds managed by HRCF. These valuations are estimated by HRCF based on a discounted cash flow analysis, application of market multiples of EBITDA (operating cash flow commonly defined as earnings before interest, tax, depreciation and amortization expenses) or a recently completed transaction with a third party, and are net of estimated carried interest and other expenses. Although HRCF believes these unrealized valuations to be accurate, there can be no guarantee that such amounts will be realized. For more information please visit www.hrcf.com.
