HAMILTON ROBINSON CAPITAL PARTNERS WISHING YOU THE POWER OF WE² IN TWENTY-TWENTY

With 8 days left in this decade are you ready for change? As we head into 2020, we should all prepare ourselves for disruptive market forces never seen before or even imagined until now. **Here are some interesting statistics to consider:**

- 5G coming on strong with potential **speeds 100 times faster than 4G** - speeds up to 100 gigabits per second
- **Sci-fi becomes reality with nanoparticles** that can be injected into a piece of equipment to perform predictive maintenance to detect flaws and even execute repairs
- Market disruption is a given - Accenture reports **72% of industry sectors have experienced a disruption** over the past 8 years

Some view these developments as a threat but we see opportunity through the "Power of We". Hamilton Robinson has been **partnering with investors, family offices, intermediaries and business owners for over 3 decades.** We understand how important the "power of we" is to our business. **We have successfully navigated multiple recessions, periods of rapid growth and disruptive change.** They all come with their challenges and require the ability to adapt and pivot wisely, remain flexible and most of all, maintain strong partnerships.

Our partnerships with management teams are forward looking while remaining mindful of the past and lessons learned. It is not about swapping out people for machines, but rather **leveraging technology to improve productivity and safety and to provide a better working environment.** We embrace **Industry 4.0 to solve problems, avoid information overload and convert information into knowledge to expand growth** in middle market companies around the US.
